### **COMPLAINT IN CONDEMNATION**

Plaintiff, Columbia Gas Transmission, LLC (“**Columbia**”), pursuant to its power of eminent domain, as authorized by 15 U.S.C. § 717f(h), and pursuant to Federal Rule of Civil Procedure 71.1, files this Complaint in Condemnation for (i) an order of condemnation for the rights-of-way, easements, and other necessary property interests more particularly depicted and described in **Exhibits B-1 through B-24**, attached hereto and incorporated by reference herein (individually and collectively, the “**Easements**”); (ii) the ascertainment and award of just compensation and damages properly attributable to Columbia’s acquisition of the Easements;

and (iii) pursuant to the preliminary injunction moving papers filed contemporaneously herewith, an order granting Columbia immediate access to and use of the Easements.

### **Jurisdiction and Venue**

1. This is a civil action for the taking of property interests under the power of eminent domain and for the determination and award of just compensation related thereto. This Court has original jurisdiction in this matter, pursuant to 28 U.S.C. § 1331, because this action arises under the laws of the United States, and under 28 U.S.C. § 1337, because this action arises under an Act of Congress regulating interstate commerce. The Natural Gas Act, 15 U.S.C. § 717f(h) grants federal jurisdiction.

2. Venue is proper in this judicial district under 28 U.S.C. § 1391(b)(2), as the properties at issue are situated within this judicial district.

3. Specifically, the Federal Energy Regulatory Commission (“FERC”) granted Columbia a certificate of public convenience and necessity (the “Certificate”) on December 29, 2017, in FERC Docket No. CP16-357-000. The FERC Certificate approves the construction and operation of approximately 170.9 miles of natural gas pipeline, compression facilities, and related appurtenances in West Virginia; the construction of three new compressor stations; and the modification of three existing compressor stations and one regulating station (the “Project”). The Project will be located in West Virginia, and the pipeline will run south from Marshall County through the state and end in Wayne County. The Project will provide an additional 2.7 million dekatherms per day (Dth/d) of firm transportation service from receipt points in the Appalachian Basin to markets in the Midwest, Northeast, Mid-Atlantic, South, and the Gulf Coast. The Project will increase deliverability by approximately 1,800,000 Dth/d to multiple Midwest, Northeast, and Mid-Atlantic markets. It will also add an additional 900,000 Dth/d of

capacity to markets in the South and the Gulf Coast. The Project will enable the safe and reliable transport of natural gas to natural gas customers across the United States.

4. A true and correct copy of the Certificate is attached hereto and incorporated herein by this reference as **Exhibit A**.

5. The FERC has determined “. . . that the public convenience and necessity requires approval of Columbia Gas’ . . . proposal[], subject to the conditions [set forth in the FERC Certificate].” *See Ex. A.*

6. The FERC Certificate expressly provides that Columbia may exercise eminent domain authority consistent therewith, and pursuant to the Natural Gas Act, as described more fully below.

7. Columbia has not been able to agree with the owner(s) of the tracts at issue (the “Tracts”) as to compensation for the Easements to be imposed on the respective Tracts and, accordingly, has been unable to acquire the Easements by contract.

8. Upon information and belief, Columbia understands that the amounts claimed by the record title holders relative to the outstanding Easements exceed \$3,000.

9. Based on the foregoing, Columbia has satisfied all of the jurisdictional prerequisites and may now exercise its federal powers of eminent domain related to the Project. Accordingly, Columbia is likely to succeed on the merits of this litigation.

### **The Parties**

10. Columbia is a Delaware limited liability company, properly authorized to do business in the State of West Virginia.

11. Columbia is a company organized for the purpose, among other things, of transporting natural gas in interstate commerce through pipes and conduits, and is an interstate

natural gas company within the meaning of the Natural Gas Act, 15 U.S.C. §§ 717a(6) and (1), and as such, is qualified to construct, own, operate, and maintain pipelines for the transmission of natural gas in interstate commerce. Columbia acts pursuant to authorization granted by, and subject to, FERC jurisdiction.

12. Columbia has caused a reasonably diligent search of the public records to be performed in the counties in which the subject properties are situated, considering the subject properties' character and value and the interests to be acquired, in order to ascertain the identity of parties owning or having an interest in the Tracts. Such known parties and interests are further described below.

13. The persons named herein as Defendants, to Columbia's knowledge, fall into two categories: (1) *Fee Owner(s)/Surface Owner(s)* (individuals who are the record title holders of the Tracts); and (2) *Other Parties in Interest* (individuals who are not the record title holders of the Tracts but who may otherwise claim some form of easement, possessory or other interest in the Tracts) (collectively, the "**Defendants**").

14. In addition to those Defendants specifically named herein, there are or may be other persons whose names could not be ascertained by a reasonably diligent search of the records, who are interested in this action and who have or claim some right, title, interest, or lien in, to, or on the Easements or Tracts, or who are occupying or in possession of the Easements, or portions of the Tracts, described in this Complaint. The identities of such other persons are unknown, and all such persons are, therefore, made defendants to this action under the name and description of "Unknown Owners" pursuant to Federal Rule of Civil Procedure 71.1(c)(3).

15. The Easements sought to be condemned in this action are within the scope of the Certificate and are necessary for the Project.

### The FERC Certificate, Project, and Project Route

16. As previously indicated, Columbia received its FERC Certificate for the Project on December 29, 2017. *See Ex. A.*

17. The Project involves Columbia's construction of a pipeline in West Virginia, along with the construction of three compressor stations and modifications to three existing compressor stations and one regulating station, and the Easements will be used for these purposes.

18. The Project will be constructed, and Defendants' properties will be restored, in accordance with, among other things, the terms and conditions of Columbia's Environmental Construction Standards, as submitted to, and approved by, the FERC (available at the FERC's eLibrary website at <http://ferc.gov/docs-filing/elibrary.asp>, by searching Docket No. CP16-357, Accession No. 20160429-5286, titled "Resource Report 1- Appendix 1D" and FERC's Final Environmental Impact Statement (available at <https://www.ferc.gov/industries/gas/enviro/eis/2017/07-28-17-FEIS/volume-I.pdf>), both of which are incorporated herein by this reference, and pursuant to any supplemental revisions or modifications made during consultation with the West Virginia Department of Environmental Protection and filed with the FERC and incorporated into the approved permit.

19. The FERC has also determined and approved the route of the Project (the "**Project Route**").

20. In total, the Project Route in the Northern District of West Virginia traverses or otherwise directly impacts 547 tracts, including the Tracts at issue in this action identified below.

21. Of the 547 tracts impacted by the Project in the Northern District of West Virginia, prior to instituting these proceedings, Columbia has acquired, or is not seeking to acquire

through condemnation, easements on 482 tracts (88% of the tracts), leaving only 65 tracts outstanding for condemnation.<sup>1</sup>

### **Right to Condemn**

22. The Natural Gas Act expressly permits a holder of a Certificate to acquire the necessary land and rights “by the exercise of the right of eminent domain” if it is unable to reach an agreement with the landowner. 15 U.S.C. § 717f(h).

23. As set forth above, there is no dispute that Columbia is a holder of a Certificate. Nor can it be disputed that Columbia has been unable to agree with the owners of the Tracts as to the compensation to be paid for the Easements and has been unable to acquire the Easements by contract, which are necessary to the operation of the Project.

24. In accordance with the preliminary injunction moving papers filed contemporaneously herewith, Columbia is entitled to immediate access to and use of the Easements.

### **The Easements and Tracts**

25. The Easements sought in this condemnation action, as depicted on **Exhibits B-1** through **B-24** hereto, are among those expressly authorized by the Certificate.

26. The Easements are necessary for constructing, maintaining, operating, altering, testing, replacing, and repairing the Project.

27. The Easements, once condemned, will be subject to the terms and conditions, and devoted to the purposes, as stated in the Certificate.

---

<sup>1</sup> Of the 65 outstanding impacted tracts within the Northern District of West Virginia, 24 are at issue in this action, while the remaining 41 are the subject of a separate but related complaint filed contemporaneously herewith.

28. The Project cannot be constructed until Columbia acquires and/or otherwise has access to and use of the Easements in and to the Tracts discussed above and further below.

29. Columbia must commence active construction activities for the Project as soon as is practicable to meet its FERC-approved in-service date of November 2018.

30. As part of the Certificate issuance process, a Final Environmental Impact Statement (“FEIS”) was issued by the FERC, which assessed the potential environmental effects of the construction and operation of the Project. The FERC concluded that Columbia’s implementation of specific mitigation measures would appropriately and reasonably mitigate any of the Project’s adverse environmental impacts.

31. Per the FEIS and the Certificate, to reduce impacts, if any, on protected species of wildlife, Columbia must, *inter alia*, adhere to clearing activity restrictions in areas identified by the National Audubon Society as Important Bird Areas from April 1st to October 15th. Additionally, Columbia must implement applicable Avoidance and Minimization Measures, including restricting clearing activities during certain periods, in areas covered by the United States Fish and Wildlife Services-approved Multi-Species Habitat Conservation Plan.

32. Timing is of the essence, and maintaining the Project schedule is critical, as, among other things, a delay in construction of the Project would likely prevent Columbia from complying with its FERC obligations under the Certificate.

33. The right to use the Easements shall belong to Columbia and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the above-stated purposes. As is more fully stated in **Exhibits B-1 to B-24**, attached hereto, and incorporated herein by this reference, Columbia seeks all necessary rights for the purposes stated herein to exercise the rights granted by the Certificate.

34. If any of the lands within the Easements are subject to valid preexisting oil and gas leases, coal leases, surface leases, pipeline easements or easements for other purposes, Columbia's Easement rights acquired hereunder from and against the owners of such leases and/or, easements, are (i) acquired only to the extent necessary to carry out the rights granted to Columbia under the Easements sought, and (ii) to be exercised by Columbia so as to not unreasonably interfere with existing rights of such owners, provided, however, that Columbia shall be entitled in all events to use the Easements to carry out the purposes approved by the FERC in the Certificate. Columbia has named such owners to the extent they may claim some interest in the lands burdened by the Easements sought by Columbia. Defendants who own any interest in a valid and existing lease and/or easement may use lands lying within the Easements for the uses authorized under the applicable lease and/or easement, provided such uses do not destroy, threaten or unreasonably interfere with Columbia's permitted uses.

35. Columbia does not seek to acquire any royalty, working, revenue, overriding, or other oil, gas, or mineral interests. Defendants shall, to the extent owned by Defendants, retain all the oil, gas, and other minerals in, on and under the Tracts, including within the Easements; provided, however, Defendants shall not be permitted to drill or operate equipment for the production or development of oil, gas, and minerals within or on the permanent pipeline easements and/or the permanent access road easements, but Defendants shall be permitted to extract the oil, gas and minerals from and under same by directional drilling and other means, so long as such activities do not damage, destroy, injure, threaten and/or interfere with Columbia's use, operation and maintenance of the Facilities or Columbia's use of said Easements for the purposes for which same are sought by Columbia.

36. It is in the public interest and necessity, as evidenced by the Certificate, that the Easements as certificated by FERC and described herein, and in **Exhibits B-1 through B-24**, be condemned for the public purposes herein described.

37. The intended uses of the Easements to be taken are within the authority conferred by the Certificate.

38. Pursuant to Federal Rules of Civil Procedure 65(c), 67, and 71.1(j)(1), Columbia stands ready to deposit into the registry of the Court the amounts determined as just compensation by licensed real estate appraisers for the Easements or \$3,000 per affected tract, whichever is greater, together with a bond, for such additional amounts as may be deemed appropriate by this Court.

39. The properties at issue are comprised of 24 separate Tracts. The Tracts are as follows:

**Calhoun County**

**Tract No. 1**

**(WV-CL-0001.000)**

40. The legal description of Tract No. 1, along with the specific easement interests in and to Tract No. 1 that Columbia seeks (i.e., the uses for which the property is to be taken and the interests to be acquired), are depicted and described in detail in **Exhibit B-1**, which is attached hereto and incorporated herein by this reference.

41. The following individuals and/or entities may claim an interest in Tract No. 1:

**Fee Owner(s)/Surface Owner(s)**

42. Timothy L. Schiele and Robin K. Schiele, individuals, are the record title holders of Tract No. 1, as described in **Exhibit B-1**, by virtue of that certain General Warranty Deed,

**WHEREFORE**, Columbia prays that this Court enter an Order:

- a) Bifurcating the issues of (1) the determination of Columbia's right to acquire the property interests at issue through the exercise of eminent domain, and (2) just compensation for the taking(s);
- b) Declaring that Columbia is entitled to acquire the Easements for the purposes set forth herein;
- c) Finding in favor of Columbia and authorizing Columbia to condemn the Easements identified and described herein;
- d) Pursuant to the preliminary injunction moving papers filed contemporaneously herewith, granting Columbia immediate access to and use of the Easements identified and described herein, prior to the determination of just compensation, upon the posting of security required by the Court to begin pre-construction activities and construction of the Facilities while the issue of just compensation for the taking is resolved in this Court; and

e) Ordering such other and further relief as may be appropriate under the circumstances, including, without limitation, such orders as may be necessary to effect the granting of the Easements sought herein to Columbia.
